

Shefware Tool Installation Guide

How to Install Shefware Software on Windows?

Installing Shefware MBOX to PST is fast and simple. Follow the steps below to install the software on Windows successfully.

Step 1: Download the Software

Go to the official Shefware Website and download **Shefware MBOX to PST**. Once the download is completed, locate the setup file in the downloads folder.

Step 2: Introduce the Setup File

Click twice on the download setup file (**Shefware MBOX to PST .exe**). If Windows shows a User Account Control prompt asking for permission to make changes to the device, click **Yes** to continue.

Step 3: Begin the Installation Wizard

The **Shefware MBOX to PST Setup Wizard** opens on the screen. Click on **Next** to start the installation process.

Step 4: Accept License Agreement

Read the Software License Agreement carefully. Choose **I Agree** or **Terms and Conditions** and click on **Next** to proceed further.

License Agreement
Please read the following important information before continuing.

Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.

SOFTWARE LICENSE AGREEMENT (EULA)

Shefware MBOX to PST Copyright © 2026 by Shefware Private Limited.
All rights reserved.

Your Agreement to this License

This End User License Agreement ("Agreement") is a legally binding agreement between you (either an individual or an entity, the "User") and Shefware Private Limited regarding the Software (the "Software" or the "Program"), and b) governing the installation, access, download, activation, and use of our software products, applications, utilities, tools, services, updates, and related documentation (collectively, the "Software").

CAREFULLY READ THE FOLLOWING LEGAL AGREEMENT.

☒ I accept the agreement
☐ I do not accept the agreement

Step 5: Select Installation Location

Choose the folder where you want to install the software. By default, the application will be installed in:

c:\Program Files\shefware**MBOX to PST**

To select a different location, click **Browse**, choose the preferred folder, and click **Next**.

Step 6: Choose the Start Menu Folder

Select the start menu folder where the program shortcuts will be generated. You might keep the default selection or indicate a custom folder, then click **Next**.

The screenshot shows a Windows installation window titled "Setup - Shefware MBOX to PST". The window has a standard Windows title bar with minimize, maximize, and close buttons. The main content area is titled "Select Start Menu Folder" and includes the question "Where should Setup place the program's shortcuts?". Below this, there are three radio buttons, all of which are unselected. The first radio button is followed by the text "Setup will create the program's shortcuts in the following Start Menu folder." Below the radio buttons, there is a text box containing "Shefware MBOX to PST" and a "Browse..." button to its right. At the bottom of the window, there are three buttons: "Back", "Next" (which is highlighted with a blue border), and "Cancel". The Shefware logo (a blue 'S' and 'W' with a cloud) is in the top right corner of the window.

Setup - Shefware MBOX to PST

Select Start Menu Folder

Where should Setup place the program's shortcuts?

☐ — Setup will create the program's shortcuts in the following Start Menu folder.

To continue, click Next. If you would like to select a different folder, click Browse.

Shefware MBOX to PST

Step 7: Allocate Additional Options

Choose any additional installation preferences such as:

- Create Desktop Shortcut
- Launch Application After Installation

Select the option that is ideal for your needs and click **Next**.

Step 8: Install the Software

A summary of installation settings will be shown. Review the details and click **Install** to start the installation. Kindly wait while the setup wizard copies the important files to the system.

Step 9: Complete the Installation

Once the installation is completed, a confirmation will display specifying **Shefware MBOX to PST** has been successfully installed. Click **Finish** to close the setup Wizard.
