

Shefware Tool Installation Guide

How to Install Shefware Software on Windows?

Installing **Shefware OneDrive Backup** is fast and simple. Follow the steps below to install the software on Windows successfully.

Step 1: Download the Software

Go to the official Shefware Website and download **Shefware OneDrive Backup**. Once the download is completed, locate the setup file in the downloads folder.

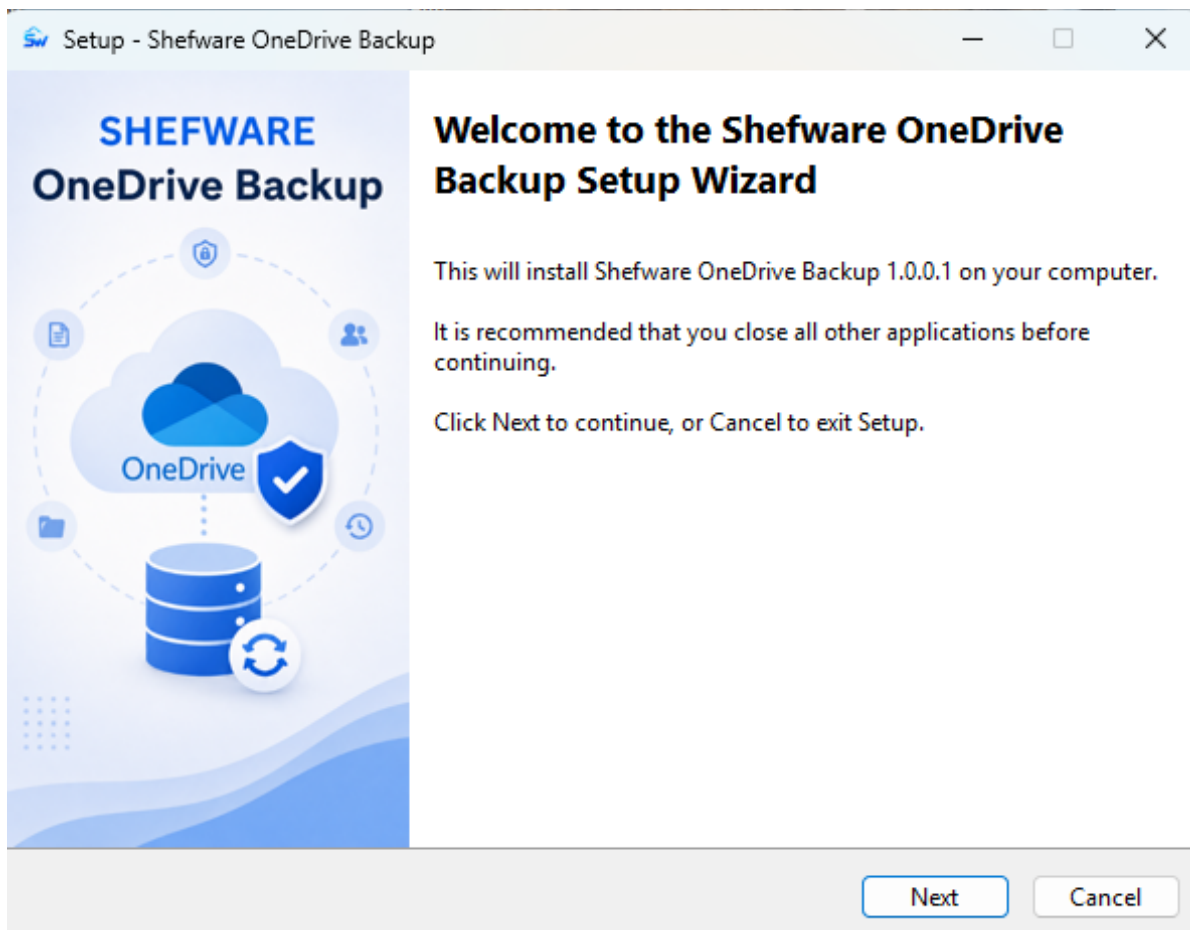

Step 2: Introduce the Setup File

Click twice on the download setup file (**Shefware OneDrive Backup.exe**). If Windows shows a User Account Control prompt asking for permission to make changes to the device, click **Yes** to continue.

Shefware_OneDrive_Backup.exe	Date modified: 14-08-2026 16:01
Type: Application	Size: 64.5 MB

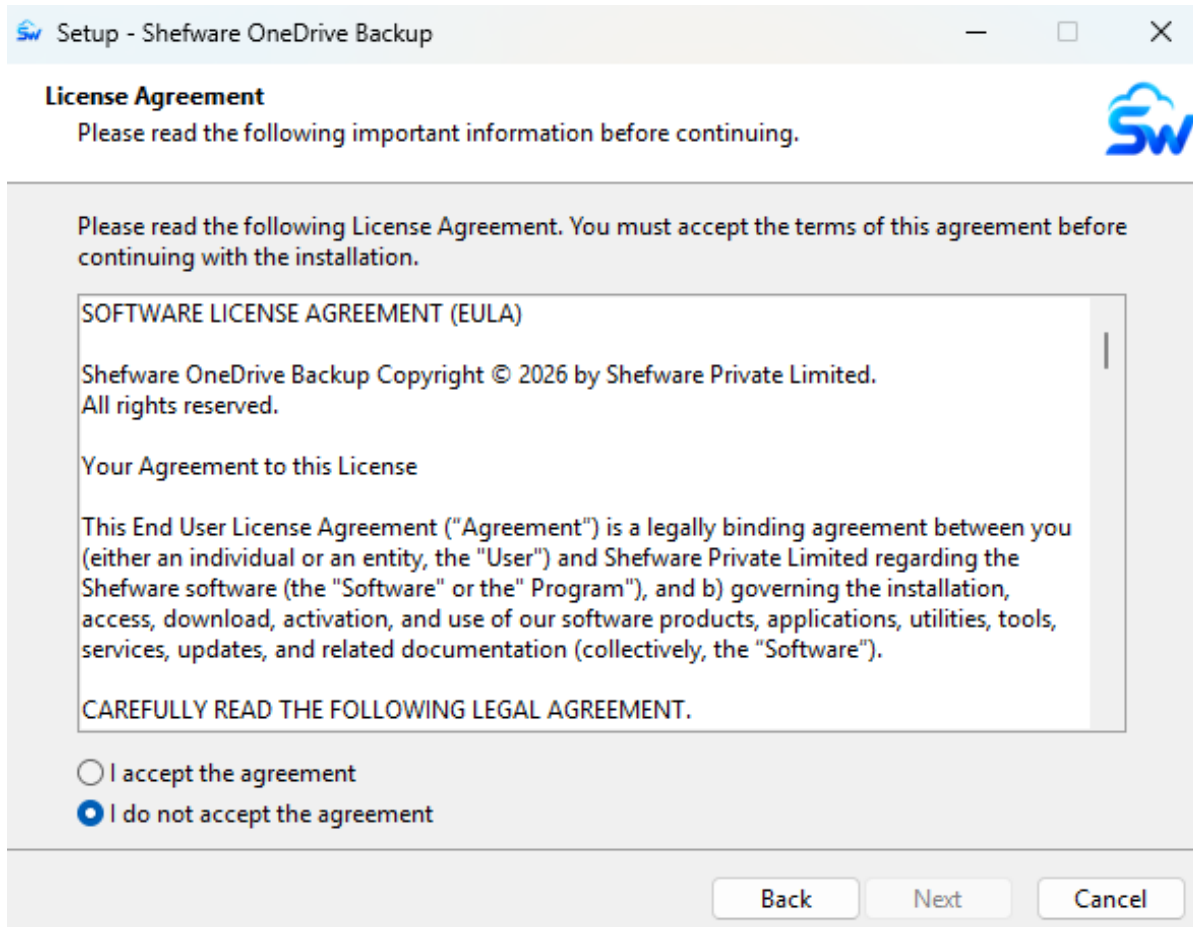

Step 3: Begin the Installation Wizard

The **Shefware OneDrive Backup Setup Wizard** opens on the screen. Click on **Next** to start the installation process.

Step 4: Accept License Agreement

Read the Software License Agreement carefully. Choose **I Agree** or **Terms and Conditions** and click on **Next** to proceed further.

The screenshot shows a Windows-style window titled "Setup - Shefware OneDrive Backup". The window has a standard title bar with minimize, maximize, and close buttons. The main content area is titled "License Agreement" and includes a Shefware logo (SW) in the top right corner. Below the title, it says "Please read the following important information before continuing." The main text area contains the following content:

Please read the following License Agreement. You must accept the terms of this agreement before continuing with the installation.

SOFTWARE LICENSE AGREEMENT (EULA)

Shefware OneDrive Backup Copyright © 2026 by Shefware Private Limited.
All rights reserved.

Your Agreement to this License

This End User License Agreement ("Agreement") is a legally binding agreement between you (either an individual or an entity, the "User") and Shefware Private Limited regarding the Shefware software (the "Software" or the "Program"), and b) governing the installation, access, download, activation, and use of our software products, applications, utilities, tools, services, updates, and related documentation (collectively, the "Software").

CAREFULLY READ THE FOLLOWING LEGAL AGREEMENT.

Below the text, there are two radio button options:

- ☐ I accept the agreement
- ☒ I do not accept the agreement

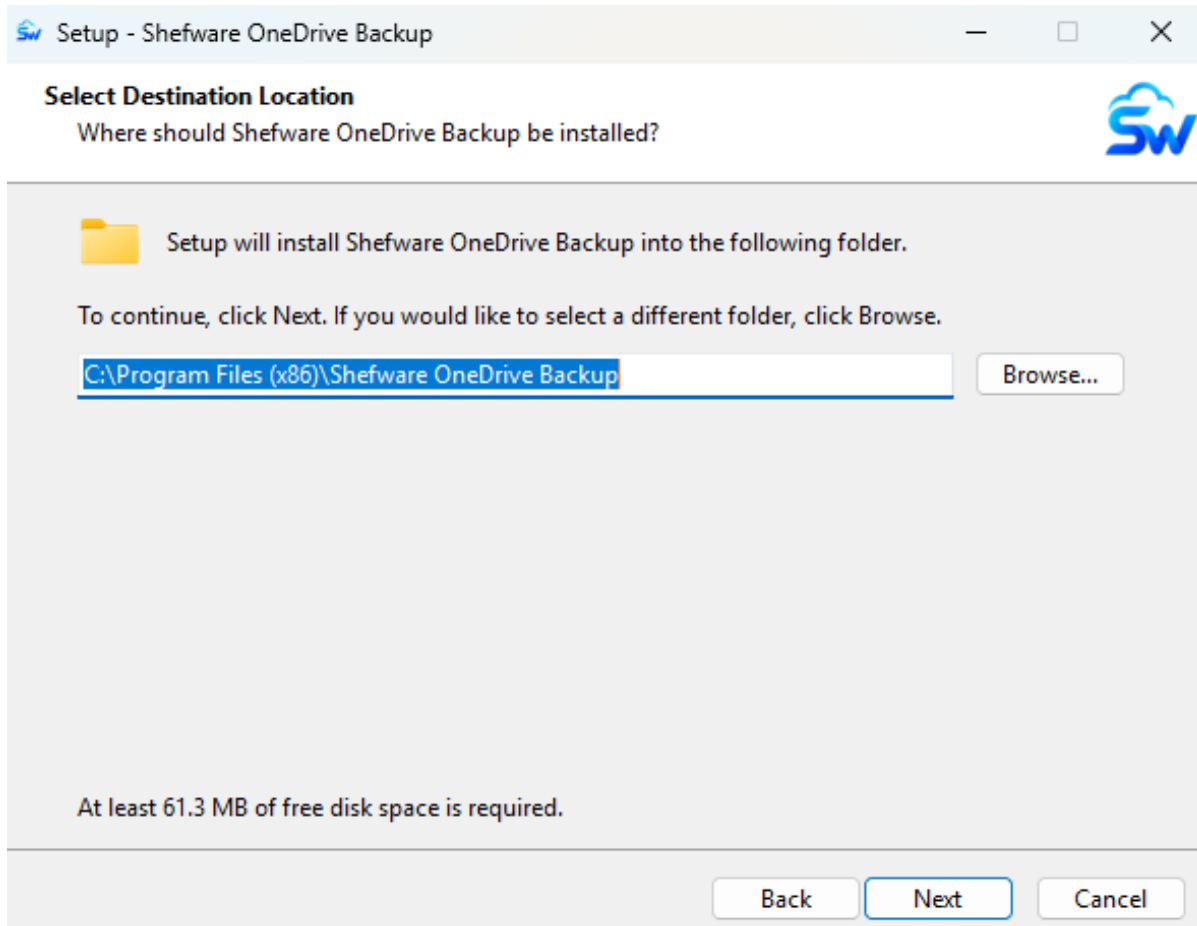

At the bottom right of the window, there are three buttons: "Back", "Next", and "Cancel".

Step 5: Select Installation Location

Choose the folder where you want to install the software. By default, the application will be installed in:

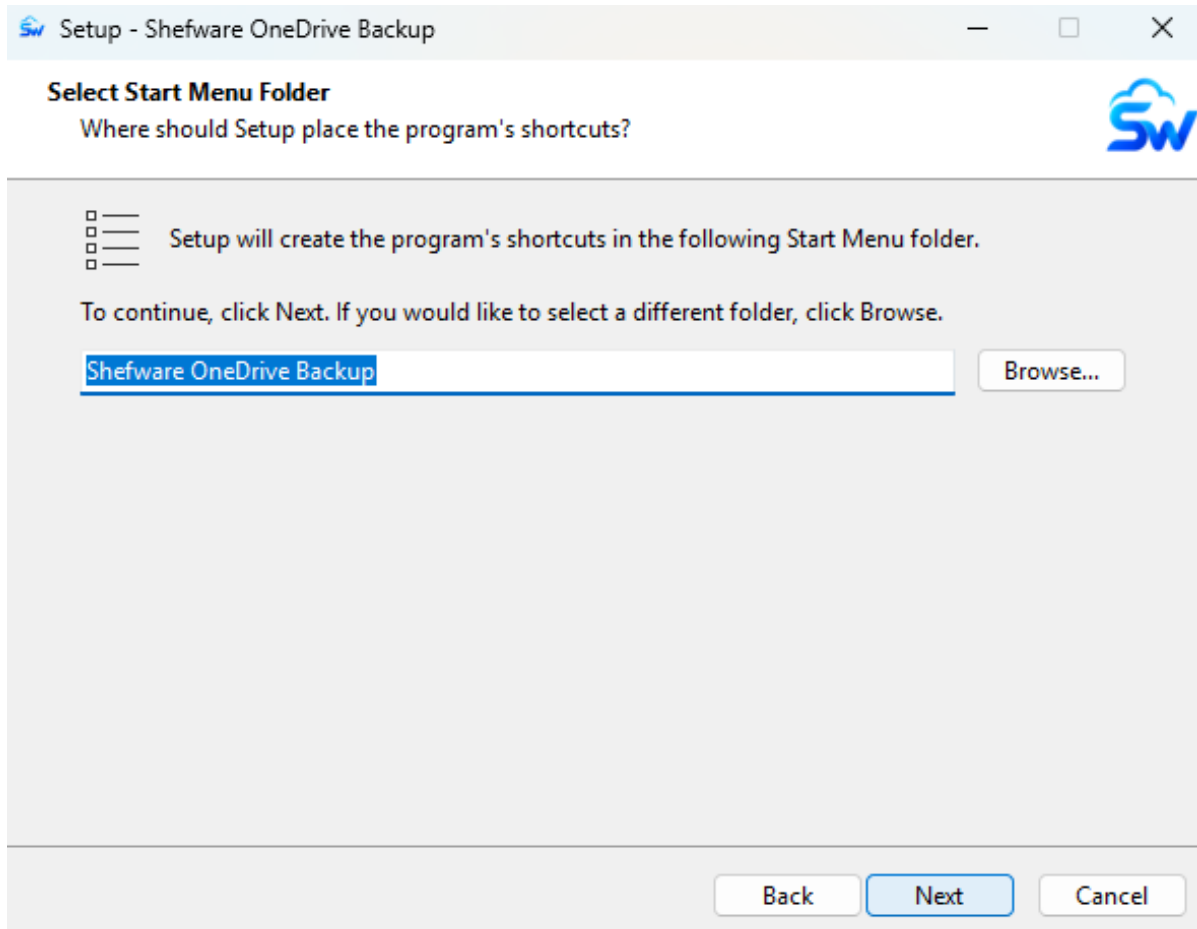

c:\Program Files(x86)\Shefware OneDrive Backup

To select a different location, click **Browse**, choose the preferred folder, and click **Next**.

Step 6: Choose the Start Menu Folder

Select the start menu folder where the program shortcuts will be generated. You might keep the default selection or indicate a custom folder, then click **Next**.

The screenshot shows a Windows installer window titled "Setup - Shefware OneDrive Backup". The window has a standard Windows title bar with minimize, maximize, and close buttons. The main content area is titled "Select Start Menu Folder" and includes the question "Where should Setup place the program's shortcuts?". To the right of the text is the Shefware logo, which consists of the letters "SW" in a stylized blue font. Below the text, there is a list box containing a single item: "Shefware OneDrive Backup". To the right of the list box is a "Browse..." button. Below the list box, there is a line of text: "To continue, click Next. If you would like to select a different folder, click Browse." At the bottom of the window, there are three buttons: "Back", "Next", and "Cancel". The "Next" button is highlighted with a blue border.

Setup - Shefware OneDrive Backup

Select Start Menu Folder

Where should Setup place the program's shortcuts?

Step 7: Allocate Additional Options

Choose any additional installation preferences such as:

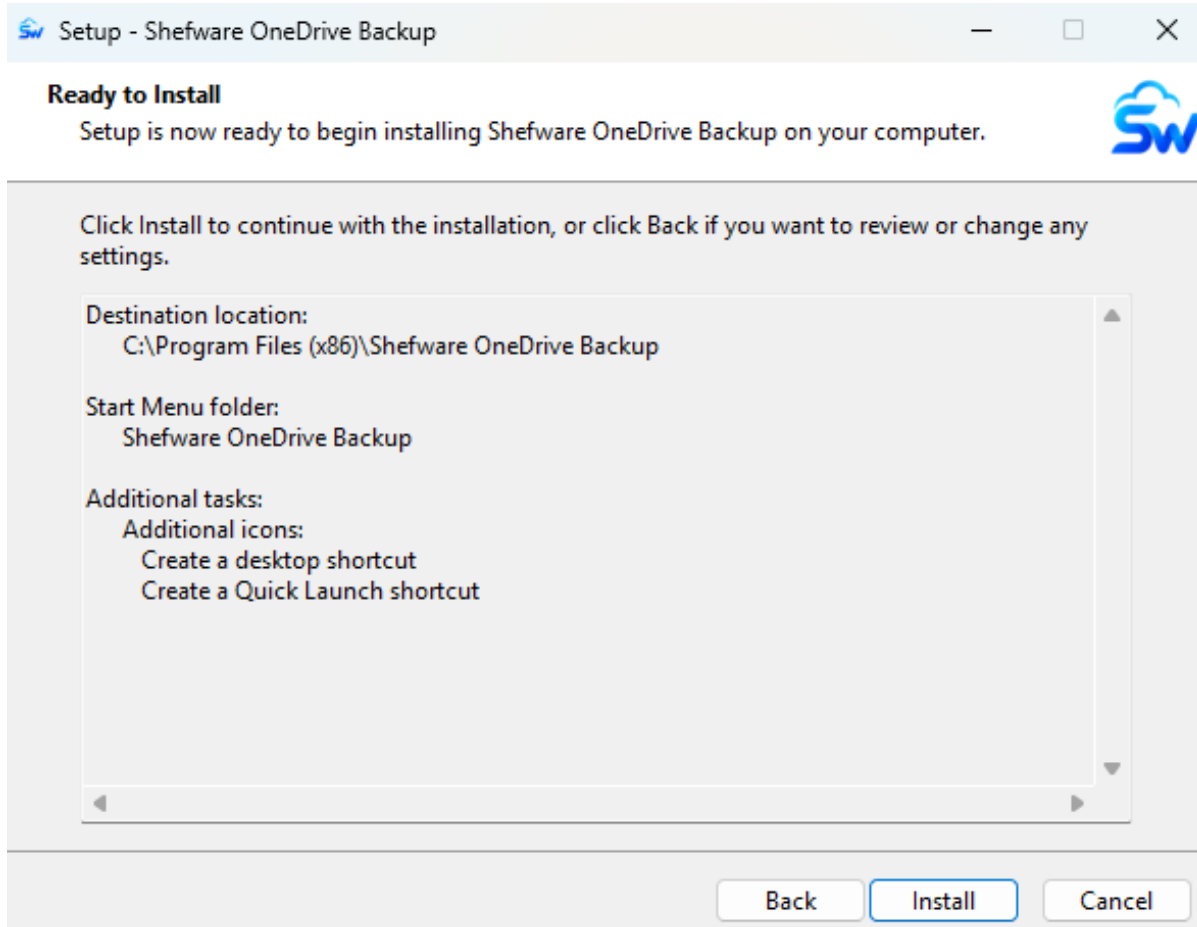

- Create Desktop Shortcut
- Launch Application After Installation

Select the option that is ideal for your needs and click **Next**.

Step 8: Install the Software

A summary of installation settings will be shown. Review the details and click **Install** to start the installation. Kindly wait while the setup wizard copies the important files to the system.

Step 9: Complete the Installation

Once the installation is completed, a confirmation will display specifying **Shefware OneDrive Backup** has been successfully installed. Click **Finish** to close the setup Wizard.
